	Office Action Summary	Examin r	<u> </u>	Art Unit						
		Rachel Gorr		1711						
Th MAILING DATE of this communication appears on the covership twith the correspondence address Period for Reply										
A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION. - Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication. - If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely - If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication - Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). - Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b). Status										
1)	Responsive to communication(s) filed on	<u> </u>								
2a)⊠	This action is FINAL . 2b) ☐ Th	is action is non-	final.							
3) Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under Ex parte Quayle, 1935 C.D. 11, 453 O.G. 213.										
Dispositi	ion of Claims									
	Claim(s) 1 and 5-7 is/are pending in the application									
4a) Of the above claim(s) is/are withdrawn from consideration.										
5)	Claim(s) is/are allowed.									
6)⊠	Claim(s) 1 and 5-7 is/are rejected.									
7)	Claim(s) is/are objected to.									
8) Claim(s) are subject to restriction and/or election requirement. Application Papers										
9)	The specification is objected to by the Examine	er.								
10) The drawing(s) filed on is/are: a) accepted or b) objected to by the Examiner.										
	Applicant may not request that any objection to th	e drawing(s) be h	eld in abeyance.	See 37 CFR 1.85(a).						
11)	11) The proposed drawing correction filed on is: a) approved b) disapproved by the Examiner									
If approved, corrected drawings are required in reply to this Office action.										
12) The oath or declaration is objected to by the Examiner.										
Priority under 35 U.S.C. §§ 119 and 120										
13)🖂	Acknowledgment is made of a claim for foreig	n priority under :	35 U.S.C. § 119((a)-(d) or (f).						
a)	⊠ All b) Some * c) None of:									
	1. Certified copies of the priority document	ts have been red	ceived.							
	2. Certified copies of the priority document	ts have been red	ceived in Applica	tion No						
 Copies of the certified copies of the priority documents have been received in this National Stage application from the International Bureau (PCT Rule 17.2(a)). * See the attached detailed Office action for a list of the certified copies not received. 										
	14) Acknowledgment is made of a claim for domestic priority under 35 U.S.C. § 119(e) (to a provisional application).									
a) The translation of the foreign language provisional application has been received.										
15) Acknowledgment is made of a claim for domestic priority under 35 U.S.C. §§ 120 and/or 121.

Application/Control Number: 09/975,513

Art Unit: 1711

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.
- 2. Claims 1 and 7 are rejected under 35 U.S.C. 102(b) as being anticipated by Carr.

Carr discloses a polyurethane resin comprising a prepolymer of methylene-bis(cyclohexyl isocyanate) (see example 2 of page 3) and polyether diols of 750-1500 molecular weight (page 2, col. 2, line 25), which is then reacted with methylene-bis-(chloroaniline) (page 2, col. 2, line 55). He makes the prepolymer, in the examples, at an NCO/OH ratio of about 3/1, and he shows the prepolymer to have an NCO content of 5-7 wt. % (page 2, col. 1, line 46). The prepolymer and amine chain extender are reacted at preferably an amine/isocyanate ratio of 0.9/1 (page 3, top col. 1).

- 3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:
 - (a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.
- 4. Claims 5 and 6 are rejected under 35 U.S.C. 103(a) as being unpatentable over Carr in view of Slagel and Smith.
- 5. Carr discloses the polyurethane of the claims (see above rejection) but doesn't show using it to make polarized lenses.

Application/Control Number: 09/975,513 Page 3

Art Unit: 1711

6. Slagel shows the same polyurethane resin made from a prepolymer of methylene-bis(cyclohexyl isocyanate) and a diol having a molecular weight of 1000 at an NCO/OH ratio of 3/1 (see example 1). He chain extends the prepolymer with an aromatic diamine. He teaches using this polyurethane for lens applications (see abstract).

- 7. Smith teaches that polarized lenses can be made by bonding a polarized sheet to the surface of a plastic lens (see abstract).
- 8. It would have been obvious to one of ordinary skill in the art at the time the invention was made to use the polyurethane of Carr for a polarized lens because Slagel shows how a similar polyurethane can be used for lenses, and Smith shows that plastic lenses can easily be made into polarized lenses.
- 9. Applicant's arguments filed 01-15-03 have been fully considered but they are not persuasive. The applicants argue that Carr doesn't show the same polyol molecular weight or prepolymer NCO content. Carr isn't limited to his example. The disclosure overlaps with the claims.
- 10. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not

Application/Control Number: 09/975,513

Art Unit: 1711

mailed until after the end of the THREE-MONTH shortened statutory period, then the

shortened statutory period will expire on the date the advisory action is mailed, and any

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later

than SIX MONTHS from the date of this final action.

11. Any inquiry concerning this communication or earlier communications from

the examiner should be directed to Rachel Gorr whose telephone number is (703) 308-

3608. The examiner can normally be reached on Mon., Tues., Thurs., Fri., from 7:00-

5:30.

If attempts to reach the examiner by telephone are unsuccessful, the

examiner's supervisor, Jim Seidleck can be reached on (703) 308-2462. The fax

phone numbers for the organization where this application or proceeding is assigned

are (703) 872-9310 for regular communications and (703) 872-9311 for After Final

communications.

Any inquiry of a general nature or relating to the status of this application or

proceeding should be directed to the receptionist whose telephone number is (703) 308-

0661.
